(As of November 30, 2001 of Gencorp)

Description: The company, a subsidiary of GenCorp, was founded in 1942 by a group of rocket scientists from the California Institute of Technology. Aerojet makes missiles, space propulsion systems, armaments, and other defense products. Products and services include solid and liquid rocket engines and motors (for the Titan and Minuteman II), control systems for rockets and missiles, submunition loading and assembly, ejection seat propulsion systems, and warhead development. In 2001 Aerojet sold its Electronic and Information Systems unit (remote sensing, ground processing, data fusion, and smart weapons programs) to Northrop Grumman.
